

IDAC Ltd Cookie Policy

Cookies and how they Benefit You

Our website uses cookies, as almost all websites do, to help provide you with the best experience we can. Cookies are small text files that are placed on your computer or mobile phone when you browse websites.

Our cookies help us:

- Make our website work as you'd expect
- Improve the speed/security of the site
- Allow you to share pages with social networks like Facebook
- Continuously improve our website for you our users

We do not use cookies to:

- Collect any personally identifiable information (without your express permission)
- Collect any sensitive information (without your express permission)
- Pass data to advertising networks
- Pass personally identifiable data to third parties

You can learn more about all the cookies we use below

Granting us permission to use cookies

If the settings on your software that you are using to view this website (your browser) are adjusted to accept cookies we take this, and your continued use of our website, to mean that you are fine with this. Should you wish to remove or not use cookies from our site you can learn how to do this below, however doing so will likely mean that our site will not work as you would expect.

Our own cookies

We use cookies to make our website work including:

Social Website Cookies

So you can easily "Like" or "Share" our content on sites such as Facebook where we have included the appropriate buttons.

Cookies are set by:

The privacy implications on this will vary from social network to social network and will be dependent on the privacy settings you have chosen on these networks.

Anonymous Visitor Statistics Cookies

We use cookies to compile visitor statistics such as how many people have visited our website, what type of technology they are using (e.g. Mac or Windows which helps to identify when our site isn't working as it should for particular technologies), how long they spend on the site, what page they look at etc. This helps us to continuously improve our website. These so called analytics also tell us if , on an anonymous basis, how people reached this site (e.g. from a search engine) and

whether they have been here before helping us to put more money into developing our services for you.

Turning Cookies Off

You can usually switch cookies off by adjusting your browser settings to stop it from accepting cookies. Doing so however will likely limit the functionality of our's and a large proportion of the world's websites as cookies are a standard part of most modern websites.

It may be that your concerns around cookies relate to so called "spyware". Rather than switching off cookies in your browser you may find that anti-spyware software achieves the same objective by automatically deleting cookies considered to be invasive. The function of deleting cookies is included in most popular firewall and security software as default.
