

ANSYS Class3 Error Report**ERROR NO:**

2012-07

Keywords:

MPAMOD *GET , , REFT

Description of Error:

When converting a temperature-dependent coefficient of thermal expansion from one reference temperature to another using the MPAMOD command, if a *GET of the original reference temperature precedes the MPAMOD command (*GET,param,REFT,mat), the conversion is not performed.

Typical GUI Path(s):

Main Menu>Preprocessor>Loads>Load Step
Opts>Other>Change Mat Props>Convert ALPx

Other Comments:**First Incorrect Version:**

Release 5.3

Corrected In:

Release 14.5

Suggested User Action For Running on Uncorrected Version:

Either remove the *GET or enter the MPAMOD command again.
