

ANSYS Class3 Error Report**ERROR NO:**

2012-11

Keywords:

APDLMATH *EXPORT MMF

Description of Error:

Exporting a symmetric sparse matrix using the MMF File Format (*EXPORT command) will be incorrect. The column values of this output file do not match with that in the original symmetric sparse matrix from the MAPDL analysis.

Typical GUI Path(s):**Other Comments:****First Incorrect Version:**

Release 14.0

Corrected In:

Release 14.5

Suggested User Action For Running on Uncorrected Version:

Use of HBMAT File Format instead of MMF Format, i.e. use command:

*EXPORT,SparseMat,HBMAT,MyFile.hbmat

instead of:

*EXPORT,SparseMat,MMF,MyFile.mmf
